Further details and access to download can here: <https://miscorescore.com.au/cms/download-app/>

All scoring must be scrupulously honest. Players must monitor each other's play. If a marker feels the score given on a particular hole may not be correct, the marker should immediately and politely question the player concerned. Unresolved instances are to be referred to the Chief Referee who will be available on course.

All players who subscribe to MiScore will be pre-registered upon arrival. When arriving at their starting hole a player will select who they are marking and begin scoring. Course details will be automatically available. Each player marks their partner's e-card via the MiScore app.

Miscore is self-submitting app. Players conclude their round and submit their agreed score via the app.

Those who don't have access to MiScore on event day will be issued a hard copy scorecard to score manually. Refer to the process outlined above. Those using a scorecard card will be required to sign the scorecard at the end of play to confirm the scores are correct before scanning their card to validate their round.
