

## Anaphylaxis Policy

Last Review: February 2026	Constructed / Reviewed by: Clayton Utz / AGSV Board
Next Review: February 2027	Approval Required: Board Motion
	Board Sign Off Date: 28 February 2017

### 1. Statement of Context

Anaphylaxis is a severe, rapidly progressive allergic reaction that is potentially life threatening. The most common allergens in school aged children are peanuts, eggs, tree nuts (e.g. cashews), cow's milk, fish and shellfish, wheat, soy, sesame, latex, certain insect stings and medications.

Ministerial Order 706 sets out the requirements that schools must follow as a minimum standard for school registration under Part IV of the *Education and Training Reform Act 2006* (Vic).

### 3. Aims

To raise awareness amongst AGSV Member Schools of the need in relation to AGSV events and activities, to comply with Ministerial Order 706 and associated guidelines on anaphylaxis management, published and amended by the DEECD from time to time.

---

#### **4. Policy details**

All AGSV Member Schools are required to develop and maintain an Anaphylaxis Policy that will comply with Ministerial Order 706 and associated guidelines in their prevention and management of anaphylaxis. When required, member schools must inform the AGSV about students who require an Anaphylaxis management plan.

---

#### **5. Implications for practice**

The AGSV will require Member Schools to sign an annual attestation of compliance with this policy (see Appendix 2).
